

KS3 Computer Science bandings

D	E	A	L	!
Band 3: Define	Band 4: Explain	Band 5: Apply	Band 6: Link	Band 7: Innovate
Can you define the keywords / program the basic language you have studied in this unit?	Can you explain the concepts you have studied in this unit?	Can you apply the theory you have studied in this unit to solve a problem?	Can you link together the ideas you have studied in this unit?	Can you innovate? Are you able to link together your ideas and skills to create new solutions to the problems around you?

Understanding your band:

a “c” after the band that means you are a beginner

a “b” means you are safely in that band

an “a” means you are an expert in that bank and close to the next one

Evidence for progression will be found in both STAR assessments and in end of topic tests

All assessed work will be evident in google sites and / or google classroom
