

# Study Skills Evening for Parents

How to practically help your child study at home without becoming the enemy

<https://uk.elevateeducation.com/parent-info>

# Three reasons schools run Elevate's Parent Study Skills Evening:

- 1 Parents want to support their children, but many aren't sure how**  
Because of changing systems, technological change or the simple fact that many haven't gone through GCSE's themselves, parents end up feeling unequipped and helpless.
- 2 Ensure the skills are followed up at home**  
Elevate seminars have the biggest impact when they are reinforced outside of the classroom. Our parent evening provides methods of supporting children without becoming the enemy.
- 3 A forum to ask any questions that have been on your mind**  
The presenter will open the seminar to the audience and address the most pressing questions they have on their mind about the Elevate program, or more specifically how they can best support **their** own child's specific needs.

## Elevate's 60-minute parent study skills evening covers the following topics:

- ✓ How parents can help their children effectively manage their time
- ✓ How parents can help their children become motivated and stay motivated
- ✓ The different types of work students should prioritise across the year to maximise results
- ✓ How parents can help children work effectively with technology whilst minimising distractions such as social media sites
